

## COMMUNITY FOOD BANK (CFB)

### Frequently Asked Questions

What is the Community Food Bank Project?	The Community Food Bank project is a strategy which establishes facilities within communities which stores locally-produced food items to ensure that food can easily be accessed and/or distributed to affected families during emergency situations. The project primarily aims to reduce the risks and vulnerability of affected families in disaster-stricken communities by mitigating hunger within 72 hours during the onset of emergency while outside help from the regional, national and humanitarian agencies is not yet available.								
What are the project goals and objectives?	CFB aims to develop capacities of local government units in the production of processed food items with longer shelf life utilizing locally-produced raw materials; 2. Establish food bank as community storage spaces for the locally-produced food items to be utilized during disaster and emergency situations; and 3, Establish a mechanism for the set-up and operationalization of the food bank to ensure timely distribution of food assistance to disaster affected families within 72 hours during onset emergencies								
What are the Project Components?	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 50%;">PROJECT COMPONENTS</th> <th style="width: 50%;">SHORT DESCRIPTION</th> </tr> </thead> <tbody> <tr> <td>Setting up of facilities</td> <td>To ensure safe production and proper storage. Specific area in the LGU shall serve as production hub where raw materials or goods are processed and packaged prior to storage and distribution to identified beneficiaries</td> </tr> <tr> <td>Local food production</td> <td>It involves the development of food items made from locally-produced resources and materials. Under this component, capacities of identified community volunteer members or beneficiaries and project partners on the development of local food products shall be enhance</td> </tr> <tr> <td>Establishment of mechanisms</td> <td>Facility operations and maintenance, and food assistance distribution.
